

Google™ is a wonderful thing, isn't it? But don't you wish the results could be a tad more reliable? That's just it. The Internet is fast and convenient, but is it reliable enough to use as a basis for the most important decision you make everyday? Probably not.

That's why Kress has developed a nationwide network of researchers that cover every county, state and federal court in the US. More importantly, Kress has packages that include that data along with additional searches to give you more information for less money, time and effort. The more information you have, the better your hiring decisions can be.

Kress Offers More Information for one Small Packaged Price

We strive to provide as much value as possible for our clients - and to make it easy to do business with us.

The Kress packages include:

- **All** the counties
- **All** the statewide criminal indexes
- **All** the federal courts
- **All** the sex offender registries
- Social Security traces

With Kress, there's no limit to the number of searches.

Don't You Want all the Information that's Available?

If there is crucial information on file regarding your candidate, wouldn't you want to know? Chances are, you might not be getting it all with your current vendor.

Ask your current vendor if you are getting federal court records as part of your current package. Ask them if their packages offer **unlimited** county, state, federal or sex offender searches.

Once you try us, you won't want to hire without us.
